Hi,
I simply would like to turn of those special characters that appear on the RichEdit Control that represent, enter, tab, space, etc...
As I dont know the name of those special chars it is hard to me to recognize the code that displays them.

Thank you,

Alex

You can do it at user level. Click that "tool" small icon at the right side of ruler.

In the code

editor.ShowCodes(Null);

should work.
