Subject: Standard button size....
Posted by mirek on Thu, 28 Aug 2008 16:20:16 GMT

Well, this is sort of nasty topic, but....

I usually tend to create all "normal" buttons with 64x24 size. It is not quite standard in any host platform, OTOH it is usually a good compromise (does look OK both in win32 and GTK).

I have noticed different sizes in Bazaar. Maybe we should discuss it a bit
