
Subject: Sqlite3 sample in linux [SOLVED]

Posted by [santiago](#) on Mon, 06 Mar 2006 03:03:28 GMT

[View Forum Message](#) <> [Reply to Message](#)

When i tried to build the sqlite3 reference sample in linux i got a lot of errors, after passing the stage of desperation => i realize that all of them where about problems in capitalization of [sS]sqlite3 in different parts of the package, so i fixed them and i'm attaching the unified .diff file.

Hope it's usefull to anyone.

Again, thanks for upp it's great!
