Only for trying, I have downloaded svn trunk from google (svn 629) and created new packages from svn (uppsrc, examples, etc). When I tried to build the Ide (on windows with mingw) I got the following error:

```
Quote:C:\upp_svn\uppsrc\IconDes>List.cpp: In member function 'void
Upp::IconDes::PlaceDlg(Upp::TopWindow&)':
C:\upp_svn\uppsrc\IconDes>List.cpp:37: error: no matching function for call to
'Upp::ArrayCtrl::GetScreenRect()'
C:\upp_svn\uppsrc\CtrlLib\ArrayCtrl.h:500: note: candidates are: Upp::Rect
Upp::ArrayCtrl::GetScreenRect(int, int) const
```

Is a bug or is a personal error?
