Hello all

I wanted to upload SysInfo package and demo into Bazaar but I do not know how.
As perhaps it is explained in some post may you give me a link to it or an explanation to know how to do it?

Thank you
Koldo

I`d like to upload (and maintain) a pair of Bazaar packages. How can I do this?

::up::
The task is still actual.
Sorry if it was discussed earlier but search didn't show anything.

I would have replied earlier but I was expecting someone else to reply.

Basically you just need SVN upload right granting to you Sourceforge account. Mirek and (I think) Unodgs can both do it. You could try PMing them.

If you'd like me to upload a package for you while you wait I can.

Thank you, mrjt. I will appreciate if you upload packages from this link:
http://www.ultimatepp.org/forum/index.php?t=getfile&id=1 819&

Also I will of course ask Mirek about access to be able to maintain packages.
