Hi all,
I am programming a function to print a document generated by code like this:

```
PrinterJob pd("Impressao de atestado de vida [pensoes]");  
Draw& w=pd.GetDraw();  
w.StartPage();
```

```
w.DrawText(900,200,"XXXXXX",Courier(160));
```

```
w.EndPage();
```

Why cant I print using Times new Roman font?

Courier font works but not Times new roman

Thanks

Alex

```
w.DrawText(900,200,"XXXXXX",Roman(160));
```

```
w.DrawText(900,200,"XXXXXX",Font().FaceName("Times New Roman").Height(160));
```

Mirek

Great!

Thank you!

Alex
