Subject: [wish] search/navigation panel should remember its settings
Posted by White_Owl on Tue, 06 Jan 2009 16:57:03 GMT

To the left of source window there is a quick navigation and search lists.
By default quick navigation panel is working in 'All' mode which shows ALL classes and headers in whole library and this is not very useful.
I believe it should be in 'File' mode by default and it should remember this setting between restarts of TheIDE.
