I am a spanish speaking person, and in this forum i seen a huge number of abbreviations that i dont know what a hell meaning. So if anyone is kind and tell me the meaning of "IMO", "OTOH" and "AFAIK", i will eternally grateful.

Saludos.

Abbreviations is blocks of code saved and replaced by keyword typed and shortcut CTRL+[.] (by default) in code editor.
For example... When i type in code editor "fi" and press shortcut CTRL+[.] then will replace with:

```
for(int i = 0; i < @; i++)
```

Where is "@", will place the cursor!
Thanks to Mirek for this mechanism! it is only first stage. In practice it is very useful!
For details click here.
