Subject: SVG Painter
Posted by koldo on Fri, 27 Feb 2009 09:00:18 GMT

Hello all

I hope to put in few days in bazaar a first version of a SVG Painter function for collaborative development. This is the declaration:

void ParseSVG(Painter& p, const char *svg);

I enclose you a screenshot of the Painter demo with SVG Painter viewing a .svg file, and the same file viewed with Amaya W3C editor.

Best regards
Koldo
