use grid's WhenMenuBar callback, connect it to your own menu callback and you have a custom right-click menu.

```
#include <CtrlLib/CtrlLib.h>
#include <GridCtrl/GridCtrl.h>

using namespace Upp;

class MyApp: public TopWindow {
 GridCtrl gc;
 typedef MyApp CLASSNAME;
public:
 MyApp () {
  Add(gc.SizePos());
  gc.WhenMenuBar = THISBACK(GridMenu);
 }
 void GridMenu(Bar& bar) {
  bar.Add("My Menu", THISBACK(Nothing));
 }
 void Nothing() {}
};
GUI_APP_MAIN {
 MyApp ma;
 ma.Run();
}
```
