
Subject: OleDb Compile error in release 2008.1

I'm getting the following compile error since I moved from Ultimate++ version 2007.1 to release 2008.1:

----- OleDb (GUI MT MSC9 DEBUG DEBUG_FULL BLITZ WIN32 MSC) (2 / 16)

OleDb.cpp

c:\upp\uppsrc\ole\util.h(98) : error C4430: missing type specifier - int assumed. Note: C++ does not support default-int

c:\upp\uppsrc\ole\util.h(98) : error C2143: syntax error : missing ',' before '&'

OleDb: 1 file(s) built in (0:02.14), 2140 msec / file, duration = 2156 msec

Line 98 states:

```
double          GetCurrency(const CY& currency);
```

Looks like the compiler doesn't recognize type 'CY', though.

Should I add some other package I didn't need to add before? The project compiled fine with the previous Ultimate++ release, just upgraded to 2008.1.

Thanks!!

Sorry for the trouble, however, 2008.1 is now obsolete.

Please try latest release and if bug persists, resubmit...

Mirek
