When in TheIde, right-click on a depending package, select 'Package Organizer' and then press 'escape' gives me:

Assertion failed in ~/upp/upp-mirror-read-only/uppsrc/Core/Value.cpp, line 168
Missing RickValyeType<134217735>::Register

Context: running SVN head revision on ubuntu 8.04

Greetings,

Jan

This works on Windows, so it must be a Linux/Ubuntu only bug?

Jeremy

I've tested I with other packages, it is reproducible for me, the same assertion occurs every time I open and close the package organiser without changing anything (not just with escape also when I press Cancel or OK)

I tested with the Bombs and Button packages.

It works also with Ubuntu 9.04. (svn head)

Confirmed and fixed.

(Asserts are only present in debug mode, that is why this was not reproduced by others... Also means: Get your theide compiled in release - it will be faster .
