Subject: Couldn't enable LLOG in X11Wnd.cpp

I'm getting compilation errors because of BeginIndent and EndIndent identificators.

I couldn't find a place where they are declared.
Do I miss something?

TIA

Sorry, LLOGs in X11Wnd were not used for long time; Begin/EndIndent are gone. They are replaced by LOG_BEGIN, LOG_END character constants.

I have tried to fix the issue...
