What is new in version 1607:

Library
* Draw: DisplayWithIcon (Display that adds an icon to any other Display)
* Draw: AttrText now has 'SetImage' (places the icon to the left of text)
* CtrlLib: DropTree widget
* Web: void AttachSocket(Socket& socket, SOCKET s, bool blocking)
* MSSQL: IdentityInsert helper (bypass of IDENTITY column insertion)
* CtrlCore: RegisterSystemHotKey (system-wide hotkey)

Download it in http://code.google.com/p/upp-mirror/downloads/list
