Subject: Spinner controls a bit off?

It looks like the spinner controls are overlapping the actual edit control. Most spinners I've seen have the edit control then at the end of it, they put a spinner control.

Thanks for any input. This is on Windows 7, but I don't think it's a Windows 7 issue, but I may be wrong.

Jeremy

Thanks, I am afraid we are ready for another ch round..

(I have noticed some glitches in default Fedora schema too).

Mirek
