hi there

in Core/Util.cpp:390
String GetIniKey(const char *id, const String& def)

```
..  
key = LoadIniFile(sIniFile ? sIniFile : ~ConfigFile("q.ini"));  
..
```

should be changed to something like

```
...  
key = LoadIniFile(!(String() = sIniFile).IsEmpty() ? sIniFile : ~ConfigFile("q.ini"));  
...
```

since the sIniFile is a
static char sIniFile[256];

and the compare yields always true, where the logic should be "if sIniFile has content, use sIniFile", right?

key = LoadIniFile(!(String() = sIniFile).IsEmpty() ? sIniFile : ~ConfigFile("q.ini"));  
...
```

since the sIniFile is a

```
static char sIniFile[256];
```

and the compare yields always true, where the logic should be "if sIniFile has content, use sIniFile", right?

Thanks, accidentally, I have already fixed this bug while finding it hard way - my major project updating got broken...

Mirek
