Symptom: uvs2 tries to upload all files

Cause: daylight saving moved filetimes on your machine

Solution: In "Sync" menu there is "Correct times" function. Activate it, it will fix the problem.

(Followup medium term solution: Tom will fix uvs2 to do this before each sync...)

This is exactly what I did..
Could Tom by the way bring old comparision style back? .. please
(or somehow improove the new style.. by adding special column with thin red lines that indicate places in text with changes, like in winmerge or beyond compare or in ultra compare)
The source files are bigger and bigger and it takes time to find changes..

Sure I will try. Just need to find some spare time..
I just thought Tom could do this for me
