Hi Mirek,
CtrlCore is still using old translation which is wrong

instead of
Quote:roRO("Ctrl+")
New translation of CtrlCore appear in my translation file but it doesn't appear in svn commit.
http://code.google.com/p/upp-mirror/source/detail?r=1972
May you please update it? I don't know but something is wrong with that commit because it
doesn't update GridCtrl and other package translations for Romanian language. Please reapply
the patch.

Thanks,
Andrei

I am sorry, the problem was in .tr import.

I am not sure what I was thinking, but at the time I had that stupid idea that only texts where
translation is missing should be used from .tr.... (so no repairs in that setup).

Now fixed and .tr reapplied.

Mirek
