Subject: Should bookmarks be "visible"? [FEATURE REQUEST]

If I set a bookmark I get no visible indication on the line (e.g. in the gutter) that a bookmark is set there. Am I supposed to see something, if so this is a bug report, if not, it's a feature suggestion. (using 603-dev3).

(If I search the forum for "bookmarks" I get 3 results - anyone else get more than this?? - I recently searched for a word that was definitely in the forum somewhere and there was no result so I'm wondering how well the searching works)

Graeme

Thanks for reporting. I'll run re-indexing tonight.
Edit. Ok, I've done it. Try your searches.

It's working ok. Probably I was searching for something that hadn't been indexed yet the time it didn't seem to work - I didn't think of it being indexed.
