Subject: Crash when loading images into 64bit exes

Hi,

My software crashes when I load JPGs in my 64bit exe but not in my 32 bit exe.

To find a nice clean example I loaded up the ImageView example and compiled an exe using MSC9 and it works fine (which was what I expected) and then I rebuilt all with MSC9X64. As soon as it starts it crashes so this should be easy to reproduce

I am using version 2161 (updated after finding problem originally with a 18XX version)

Nick
