
Subject: [SOLVED] Xmlize LineEdit with line breaks inside

Posted by [mdelfede](#) on Sat, 20 Mar 2010 16:41:59 GMT

[View Forum Message](#) <> [Reply to Message](#)

When streaming out LineEdit with line breaks inside resulting
XML contains extra spaces because of line breaks + xml formatting.

I think new lines in xml should be replaced by &br; on storing and reconverted back on loading.

Ciao

Max

p.s.: same for DocEdit and, I guess, same for all Strings streamed by Xmlize():

solved by Mirek on 21/03/2010 svn.

Ciao

Max

Hi,

it seems there's a typo in the associated code, can someone please correct this:

in Core/XML.cpp, lines 762 and 765, replace 'n' by '\n'

Thanks a lot,
Lionel
