```
#include <CtrlLib/CtrlLib.h>
using namespace Upp;

template <class T>
struct WithForcedHorz : public T
{
    virtual void Layout() {
        Rect r = GetRect();
        Size sz = GetParent()->GetSize();
        r.right = sz.cx - r.left;
        SetRect(r);
        T::Layout();
    }
};
```

GUI\_APP\_MAIN

```
{
    TopWindow wnd;
    ArrayCtrl ctrl;
    WithForcedHorz<DropList> list;

    ctrl.AddColumn("Item").Edit(list);
    ctrl.AddColumn("Data");
    for (int i = 0; i < 9; i++) {
        String s = Format("Item %d", i+1);
        ctrl.Add(s, i);
        list.Add(s, s);
    }
    wnd << ctrl.SizePos();
    wnd.SetRect(Size(300, 400));
    wnd.CenterScreen().Sizeable();
    wnd.Run();
}
Easy
```

mrjt, thank you very much for quick answer. But I'm afraid your example is not exactly what I wanted.

I try to embed Ctrl on regular basis (not as editing Ctrl, but as Ctrl that is seen even if row is not selected/edited). So I changed your example a bit to use `ArrayCtrl::SetCtrl()` instead of `ArrayCtrl::Column::Edit()`.

```
#include <CtrlLib/CtrlLib.h>
```

```
using namespace Upp;
```

```
template <class T>
struct WithForcedHorz : public T
{
    virtual void Layout() {
        Rect r = GetRect();
        Size sz = 300;
        SetRect(0,2,300,r.Height());
        T::Layout();
    }
};
```

```
GUI_APP_MAIN
```

```
{
    TopWindow wnd;
    ArrayCtrl ctrl;
    WithForcedHorz<DropList> list[9];

    ctrl.AddColumn("Item");
    ctrl.AddColumn("Data");
    for (int i = 0; i < 9; i++) {
        String s = Format("Item %d", i+1);
        ctrl.Add(s, i);
        ctrl.SetCtrl(i, 0, list[i]);
        ctrl.SetLineCy(i, list[i].GetRect().Height()+2);
    }
    wnd << ctrl.SizePos();
    wnd.SetRect(Size(300, 400));
    wnd.CenterScreen().Sizeable();
    wnd.Run();
}
```

And it looks like embedded control is cropped by cell rectangle (that is in fact good behaviour). It looks like there is no way to embed Ctrl this way, so I'll try to set custom Display for my row and emulate needed control.

No, cell spans are not supported in ArrayCtrl.
