Hello everybody,

I just posted translations for some of the uppweb pages into Czech. So far: index, overview, examples, screenshots and funding. I would like to ask someone speaking Czech to check it (sounds funny ).

I had a bit of problems to translate some of the jargon (e.g. callback or widget don't have simple Czech equivalents AFAIK), so I was forced to use sort of Czenglish on some places Also I am not a programmer, so it is possible that I got the terminology wrong somewhere. I'll be glad if you can correct it or tell me what should be rewritten.

Best regards,
Honza
