Subject: Option Horizontal scrollbar in TheIDE editor - "allways" [FEATURE REQUEST]

Hello

In U++ 603 dev3 the Days example has 111 characters on line 6. With the width I happen to have TheIDE window currently set to, this means I can't see the entire line unless I either position the cursor to the end of the line or use the horizontal scrollbar - however I get no horizontal scrollbar unless the cursor is on line 6. As soon as the cursor moves off line 6 the H scrollbar disappears. Is this intentional?

Graeme

Yes, this is intentional and this topic has been discussed a few times and must be in "features list" ...
