Hello all

We are pleased to inform you that the plan begins today.

You can get the info here: http://www.ultimatepp.org/www$uppweb$tutoring$en-us.html

In next days this will be published in announcement forums.

It is a new and exciting experience. Because of it we will probably have to adapt ourselves. It will not be easy.

But I think it will help to broad U++ user and developer base and let more people know why we like U++ smart C++ and why you all U++ supporters are great.
