Hello everybody,

Someone know why my newlines do not work when i use messagebox:

String infos;

```
infos << "Hello everybody\n";
```

```
infos << "Have a nice day";
```

```
PromptOK(infos);
```

It will show a messagebox with "Hello everybody Have a nice day in a single line"

The reason is that PromptOK expects QTF. You have two options. You can use QTF newline (&) or you can toggle QTF by starting your string with "\1".

ratah wrote on Fri, 23 July 2010 14:39 Someone know why my newlines do not work when i use messagebox:

Prompt uses Qtf format, so you should convert infos to Qtf, or use Qtf tags directly.

```
PromptOK(DeQtfLf(infos));
```

```
PromptOK("Hello & world");
```
