Hi,

debugging: is there any way to increment the number of rows displayed? For instance, if I want to debug a vector with 100 elements, how can ALL the elements be displayed in the debugger? So

array/vector/Vector, etc..(in general, any container)?

Cheers,

Javier

Any volunteer?

Cheers,

Javier

Hello all

It seems very reasonable.

Could we confirm that this at least is going to be in the TODO list?
