
Subject: [Fixed!] ScanUuid returns wrong value

This is due to bug in scanX function, Uuid.cpp @ 34.

Correct scanX is:

```
dword scanX(const char *s)
{
    dword r = 0;
    for(int i = 0; i < 8; i++) {
        r = (r << 4) | (*s >= '0' && *s <= '9' ? *s - '0' :
                      *s >= 'A' && *s <= 'F' ? 10 + *s - 'A' :
                      *s >= 'a' && *s <= 'f' ? 10 + *s - 'a' : 0);
        s++;
    }
    return r;
}
```
