Subject: Layout editor problem with Ctrl &

Hello all

Using DropTime, if WantFocus and Seconds are unset I get a 'Seconds' : is not a member of 'Upp::Ctrl' error.

This is because as the translated code is WantFocus(false).Seconds(false), WantFocus does not return a DropTime &.

Is there any solution?

Hi Koldo

I guess the only correct solution is to change CtrlLib/CtrlLib.usc, e.g. like this:ctrl DropTime {
 group "Input fields";

 GetMinSize() { sz = XMinSize(); sz.cy += 6; return sz; }
 GetStdSize() { sz = GetMinSize(); sz.cx *= 15; return sz; }

 Frame SetFrame = InsetFrame();
 bool SetEditable = true @2 ? "Editable";
 bool SelectAll = true;
 bool SwapMonthYear = false;
 bool Seconds = true;
 bool NotNull = false;
 bool WantFocus = true;
 Text Tip;
//...
}
Actually the same problem applies to other Ctrls as well (I saw it in at least in DropDate, Clock, Calendar).

Hello Mirek and Daniel

Like Honza says, perhaps the simplest solution would be to rearrange .usc methods order in every class so that Ctrl methods would be the last.

I have included this in Redmine, bug 49.

Hello

Here I enclose you some changes in CtrlLib.usc.

Basically the changes have been:

Methods reordered:
- DropTime
- DropDate
- DocEdit
- LineEdit: In addition removed AlignRight(), MaxChars() from .usc
- TabCtrl: In addition removed SetFont() from .usc

All Ok:
- ArrayCtrl

Please check it and after that I will follow with other fixes.

Hi Koldo

koldo wrote on Mon, 25 April 2011 16:05Methods reordered:
- DropTime
- DropDate
- DocEdit
- LineEdit: In addition removed AlignRight(), MaxChars() from .usc
- TabCtrl: In addition removed SetFont() from .usc

All Ok:
- ArrayCtrl
Tested all of the mentioned changes. No problems found It should be safe to commit.
