Hello Daniel

Now when pasting on a GridCtrl no callback is called.

I think it would be reasonable that WhenAction() would be called.

To to it just add a WhenAction(); in line 909 of method void GridCtrl::Paste(int mode)

To to it just add a WhenAction(); in line 909 of method void GridCtrl::Paste(int mode)

WhenInsertRow/WhenUpdateRow is called for each pasted row and WhenPasteCell for each pasted cell. Why do you need WhenAction?

Sorry Daniel

In that moment I did not find the Callback for pasting.
