Hi,

there is a mistake in CtrlLib/ChGtk.cpp that appeared in Rev. 3427.
Please change the first lines into:

#include "CtrlLib.h"

#ifdef GUI_X11
#ifndef flagNOGTK

#include "ChGtk.h"

NAMESPACE_UPP
Thank you.

Matthias

This fix is needed for systems without gtk/gdk headers installed for NOGTK builds.
Please have a look into it, it's a simple fix.

Matthias
