Subject: WhenEnter in GridCtrl not fired

Hello,

I was trying to attach a callback to the WhenEnter of the list control (GridCtrl) of a DropGrid, but it did not seem to respond.

I think the problem is in line 5100 of GridCtrl.cpp (rev 3549). As you can observe there, the calling of WhenEnter is inside the conditional LOG_CALLBACKS block.
Moving this line just after the endif does the trick for me. It even made my callback obsolete as the dropgrid already does an accept upon pressing the enter key, so I guess that's the way it should be.
Could you give it a look, please?

Best regards,

frank

You're absolutely right. It's fixed now.
