Subject: why are these recent changes in upp files of plugins

recently 3 of the project files changes in subdirs of uppsrc/plugin. For example tif.upp:

...
options
 "-DSTDC",
 "-DCHECK_JPEG_YCBCR_SUBSAMPLING",
 -DDEFAULT_EXTRASAMPLE_AS_ALPHA,
 -DSTRIPCHOP_DEFAULT=TIFF_STRIPCHOP,
 -DPIXARLOG_SUPPORT,
 -DZIP_SUPPORT,
 -DOJPEG_SUPPORT,
 -DJPEG_SUPPORT,
 -DLOGLUV_SUPPORT,
 -DNEXT_SUPPORT,
 -DTHUNDER_SUPPORT,
 -DLZW_SUPPORT,
 -DPACKBITS_SUPPORT,
 -DCCITT_SUPPORT,
 -DFILLODER_LSB2MSB;
...The change is that some options are now quoted. It seems inconsistent. Is there some
importance of this? Or is this quoting just accidental, and parsed the same way?

Byproduct of fixing Linux. Quotes are harmless - ide uses them if option text contains ',' or ';' or ' '.

When Tom was fixing Linux ide, he was accidentaly using some older version of ide which
required quotes - so he started to fix .upp files to get it going (wrongly), then found the better
version.... and forget to fix it back. Sorry for confusion.
