hello everybody

I have 2 ctrl "containers" and 2 ctrl "content" that i can move around.
I added an event handler for class content so that when it is dragged and dropped (mouse leaved) i want to add this ctrl to one of my containers.

No bug in my program except that my ctrl "content" is disappear!!!
i do refresh for all without success.

Thank you for your reply

Sorry, week ago I accidentally changed PasteClip semantics, which fix has broken some D&D operations.

Should be fixed now.

Mirek
