Hi,

I have created a login page for an application. Now I need to mask the char entered into the password field.Could you suggest me to accomplish the above.

Thanks & Best Regards,

Nayana

Hi Nayana,

Welcome to the forum

Nayana wrote on Mon, 10 October 2011 10:52Hi,

I have created a login page for an application. Now I need to mask the char entered into the password field.Could you suggest me to accomplish the above.

Thanks & Best Regards,

Nayana

There is a method for that: EditField& Password(bool pwd = true). Just call it on the field you want to mask.

Best regards,
Honza
