Hello all

From a few days ago I have problems inserting images or labeling texts as code or quote in Forum. I use Firefox 7 in XP.

Hm, it rather looks that "backend" works just fine (you CAN insert code by manually adding the tag, but not by pressing the button), but something with javascript is broken.

Going to check that....

Hello Mirek

It works in Internet Explorer 7 but not in Firefox 7.

This is the code

Your post looks fine from Firefox 7, windows Vista.

Jesus, version 7 already? I remember version 2...

Hello cbpporter

The posts also look good in Firefox. The problem is in editing them.

Firefox 7... Yes, they have made many updates in few time to have similar version numbers like Explorer .

Hello Mirek

Now it works.
