Hi there,

I'm trying to change the background color of a EditField but no matter what the background of the field is just black.

```
LAYOUT(testLayout, 376, 140)
 ITEM(EditField, ef, LeftPosZ(24, 64).TopPosZ(12, 19))
END_LAYOUT
test::test()
{
 CtrlLayout(*this, "Window title");
 EditField::Style sd = ef.StyleDefault();
 sd.paper = White();
       sd.text = Red();
 ef.SetStyle(sd);
 ef.Refresh();
}
```

The text color is red but the background isn't it. Whats my fault?

I'm trying to change the background color of a EditField but no matter what the background of the field is just black.

```
LAYOUT(testLayout, 376, 140)
 ITEM(EditField, ef, LeftPosZ(24, 64).TopPosZ(12, 19))
END_LAYOUT
test::test()
{
 CtrlLayout(*this, "Window title");
 EditField::Style sd = ef.StyleDefault();
 sd.paper = White();
       sd.text = Red();
 ef.SetStyle(sd);
 ef.Refresh();
}
```

The text color is red but the background isn't it. Whats my fault?

Overriding style has to be static or global. Try

```
LAYOUT(testLayout, 376, 140)
 ITEM(EditField, ef, LeftPosZ(24, 64).TopPosZ(12, 19))
END_LAYOUT
test::test()
{
 CtrlLayout(*this, "Window title");
 static EditField::Style sd = ef.StyleDefault();
 sd.paper = White();
       sd.text = Red();
 ef.SetStyle(sd);
}
```
