Thank you, applied.

Note: There were some bugs in .tr, nothing serious, but you have delete first line with "LANGUAGE" and some " and ; characters...

Last changes:
Koldo pointed me out I should not include \v in the translation. So I removed it. The texts displays correctly now.

I'm finding bugs as I use it. So this is work in progress.

I fixed some bugs in the Report dialog.

I had to shorten the strings to fit the buttons.

Here is the fixed version.

Thanks

BTW... You can add me to the list of language maintainers if there's one.
