It's empty, I updated my local ressources from google mirror but the examples.tpp just contains the headline (in all languages... en, cz, ca, fr ...)

Hi Wolfgang,

That is actually correct The examples are put in the pages automatically (based on examples and reference directories) while generating the pages. If you try to compile and run uppweb, you'll see it works

Best regards,
Honza

Thank you Wolfgang

It is a pity but it cannot be translated for now as the package descriptions cannot be translated.
