Hi All,

Q1). whether .dli and .cpp files are available for Oracle.10g?
Q2). If not, how to create dli for oracle.10g ? is there any specific method to create the same?

I need for ubuntu.

Thanks,

Ayana

Q1). whether .dli and .cpp files are available for Oracle.10g?

Yes. It is in Oracle package. Use 'Oci8' session type (but AFAIK Oci7 works as well).

This might be the only problem, as I doubt anybody ever tried Oracle in Linux. But principally, it should work.
