Hi all
I am fascinated with U++ but it id difficult to progress from the beginning.
I am completely newbie in u++
After reading the forum I found no reponse to my question
Can someone explain me step by step how to add a new class to an existing project in u++ (including files and spacenames).
Thank's in advance

Hello Paco

As I imagine you speak Spanish and your question is simple I can contact you directly to try to answer you.
