Hello Daniel

Now it is got a runtime error when trying to Jsonize a GridCtrl with colored cells with AttrText.

A solution to this would be changing `Vector< Vector<Value> > GridCtrl::GetValues()`.

Before:

```
for(int j = 0; j < cols_cnt; j++)
    v[i][j] = items[i + fixed_rows][j + fixed_cols].val;
```

After:

```
for(int j = 0; j < cols_cnt; j++) {
    Value &val = items[i + fixed_rows][j + fixed_cols].val;
    if(IsType<AttrText>(val)) {
        const AttrText& t = ValueTo<AttrText>(val);
        v[i][j] = t.text;
    } else
        v[i][j] = val;
}
```
