Subject: MySQL Example: NativeMySql/NativeMySql.sch: No such file or directory
Posted by x0d3r on Mon, 20 Aug 2012 22:47:34 GMT

Hello there ! Im trying to run this example:

 http://www.ultimatepp.org/srcdoc$MySql$NativeMySql$cs-cz.htm I

But this error shows:

In file included from C:\upp\uppsrc/MySql/MySqlSchema.h:65:0,
          from C:\upp\uppsrc/Sql/sch_header.h:37,
          from C:\upp\appz\HellloCpp\main.cpp:7:
C:\upp\uppsrc/Sql/sch_model.h:162:15: fatal error: NativeMySql/NativeMySql.sch: No such file or directory
compilation terminated.
HellloCpp: 1 file(s) built in (0:00.39), 391 msecs / file, duration = 406 msecs, parallelization 0%

There were errors. (0:00.45)

Any clue??

Thanks in advance

Hi x0d3r,

In order to compile, your project should be named NativeMySql and schema file should be named NativeMySql.sch, or change the define of schema file to match your project name
#define MODEL <HellloCpp/NativeMySql.sch>
where NativeMySql.sch contain the following code

TABLE_(test_table)
   INT_(id)PRIMARY_KEY AUTO_INCREMENT
   STRING_(value,50)
END_TABLE

Best regards,
Andrei

Also note that TheIDE can insert the code needed to include .sch file into package. Add .sch file, rightclick in the source editor and choose "Insert" / "Insert xxx.sch include".
