I'd like to have "set main package" button on a toolbar.
or a shortcut.
Opinions?

Actually, it would be even better "drop down list" instead of the group "cut, copy, paste" which I guess nobody uses...

Actually, it would be even better "drop down list" instead of the group "cut, copy, paste" which I guess nobody uses...

Or.., you can run 2 or more instances of Ultimate++ and edit in one while compiling the others...

Is that correct tip?
