Hi,

I am defining a UClass in a Layout in a .lay File.

When I place it on the Layout on the left pane right next to the name definition there is a drop down where a type/class(I guess) could be specified for this user class.

I am interested in particularly the options:

NormalSize

Base

What kind of classes are those?

Thank you.

Best,  
nejnio

Well, that is acutally only a minor bug in layout designer (some utility .usc classes) - should be now fixed.

Mirek,

Thank you.

Best,
