Hallo guys,
I have a little problem with Droplist control into GridCtrl...

All seems going fine... i can open the droplist and it show me Values but when i select a Value or when i add a new row the GridCtrl show me the Key.

I'd like it always show me Values... is it possible?

Droplist:

```
void UMforza(DropList &dl)
{
 dl.Clear();
 dl.Add(1,"KN").Add(2,"daN").Add(3,"Kg").Add(4,"N");
 dl.SetIndex(0);
}
```
