I fixed some odd Dutch translations in Ctrlib.t that showed up in my program. Here they are.

(version 5485)

What would be the best way if I want to help with translations and the occasional bug that bugs me?

[http://www.ultimatepp.org/srcdoc\\$Core\\$Translating\\$en-us.html](http://www.ultimatepp.org/srcdoc$Core$Translating$en-us.html)

(If you could export your changes in .tr format it would be helpful).
