Hello guys!

I have some problems to display Tips from several widgets on the StatusBar when they get the focus.

The search pointed me to this thread:  
EditString and custom msg on status bar

So I created the following:

```
void MyApp::ChildGotFocus()
{
    Ctrl *curCtrl = GetFocusCtrl();

    if( curCtrl->GetTip().GetLength() > 1 )
        status.Set( curCtrl->GetTip() );
}

void MyApp::ChildLostFocus()
{
    status.Set("Ready");
}
```

status is my StatusBar.

This works for EditDouble and EditDoubleSpin, but not for DropList and Option.

How can I have the Tip on the StatusBar for these widgets (or even better: for any widget that has a Tip)?

Thank you very much!
