Hi

when added to the repository, you get a message about corrupted packets.

W: Unable to get http://upp.invothink.com/release/dists/squeeze/main/binary-i 386/Packages.gz
500 Internal Server Error

http://upp.invothink.com/release/README

theide he has compiled and work on my debian but I wanted to try from the repository.

might be able to fix it somehow

I greet everyone on the forum

Hi arkady_c,

It looks like the repository update was not successful, some files are missing. I have a look at it.
Thanks for reporting it.

Best regards,
Honza

Yes. it said that the package is damaged.
report for the information of the author
I work because I have recompiled TheIDe
