Hi all,
here a new question for u guys

Is it possible to have a DropDownList with more than a THISBACK ? how?

Regards,
Matteo

Is it possible to have a DropDownList with more than a THISBACK ? how?

Regards,
Matteo

Hi Matteo,

Do you mean having multiple callbacks on one action? That is possible to do by chaining them with operator<< :

```
myctrl << THISBACK(Action1);  
myctrl << THISBACK(Action2);  
myctrl << THISBACK(Action3);
```

Best regards,
Honza

Lovely!
Thx Honza

Ho...

Quote:myctrl << THISBACK(Action1);

myctrl << THISBACK(Action2);

myctrl << THISBACK(Action3);

Well I never picked this one up.

Good thing to know.
